Weakness

Perfectionism: I tend to strive for perfection, which can sometimes lead to spending too much time on details. I'm working on balancing quality with efficiency by setting time limits for tasks.

Certificates

Front-End Developer
- Certified System Analyst
- Certified Web Developer
- Certified Advanced Front-End Developer (Angular Specialization)

Skills

● ● ● ○ ○

.

Change Management: Expertise in managing change and adapting to evolving project requirements while maintaining focus on deliverables.

Projects

Talent Track (Job Management System)
The Job Portal System is a comprehensive platform designed to connect job seekers with employers, streamlining the recruitment process. Key features include:

- **User Accounts**: Separate registration and login for job seekers and employers, allowing personalized experiences.
- **Job Listings**: Employers can post job openings with detailed descriptions, requirements, and application deadlines, while seekers can browse and filter listings by various criteria.
- **Application Management**: Job seekers can submit applications, upload resumes, and track their application status, while employers can manage and review applicants efficiently.
- **Search Functionality**: Advanced search and filter options enable users to find relevant job opportunities or candidates quickly.
- **Notifications**: Email and in-app notifications keep users informed about new job postings, application status updates, and messaging.
- **Admin Dashboard**: A centralized dashboard for administrators to manage users, job postings, and site content effectively.
- **Analytics and Reporting**: Tools to provide insights into user engagement, job posting performance, and overall system usage.

By building this Job Portal System, we aim to create a user-friendly platform that enhances the job search experience for seekers and simplifies recruitment for employers, ultimately fostering successful job placements.

Achievements

-
- Persuing / Developing a fully functional Web application using Angular
- Delivered PPT on Angular
- Version Control & Collaboration
